DETAILED ACTION

Response to Amendment

1. The reply filed on July 17, 2003 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s): The claims as originally presented cite “a computer-implemented method for managing risk related to an online transaction, comprising the steps of gathering data generally related to risk variables associated with the online transaction; receiving information relating details of the online transaction; structuring the information received according to risk quotient criteria; and calculating a risk quotient referencing the structured information and the gathered data” whereas the amended claims recite “a computer implemented method for managing risk related to an online transaction associated with an online marketplace, comprising the steps of receiving into a computer system data descriptive of the transaction comprising at least one of an: amount of money involved in the transaction; one or more geographic locations associated with the transaction; government regulations associated with the transaction; and one or more currencies involved in the transaction; receiving into the computer system an identifier of one or more market participants associated with the transaction; receiving into the computer system data generally related to at least one of regulatory risk, reputational risk, legal risk; and risk associated with a cost to defend an adverse position; associating a portion of the data generally related to at least one of regulatory risk, reputational risk, legal risk; and risk associated with a cost to defend an adverse position with at least one of: the data descriptive of the transaction and the identifier of one or more market participants associated with the transaction; and generating a report comprising the portion of the data generally related to at least one of regulatory risk, reputational risk, legal risk; and risk associated with a cost to

defend an adverse position which is associated with at least one of the data descriptive of the transaction and the identifier of one or more market participants associated with the transaction” which are clearly distinct and different inventions. See 37 CFR 1.111. The two inventions require substantially different searches. The applicant elected the former invention by original presentation. The rejection of the original claims as discussed in the office action stands. (See MPEP 8.21.03) Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment.

EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).
